

## Tamale RMS® for Multi-Managers

# Enhance your manager research and due diligence process

Tamale RMS organizes your research data and puts all the information you need at your fingertips—anywhere, any time.

As the volume of manager research information grows rapidly, today's firms are finding it difficult to gain transparency and to quickly access the data they need. Tamale RMS provides a centralized and intuitive framework for saving, organizing, and sharing all of your research information to enhance and support your research and due diligence processes. With Tamale Web you can now access your data from anywhere at any time.

**Streamline due diligence.** By aggregating manager research in a single location, Tamale RMS creates greater transparency and access to the information that drives decisions.

**Automate document filing and free up time to focus on what matters.** Work more efficiently by automating tedious tasks such as processing email.

**Enhance manager tracking.** Easily capture and track information on all of the managers in your universe.

**Bring key information together for better, faster decisions.** Seamlessly integrate internal research and custodial data with risk and performance data.

**Stay in synch and collaborate like never before.** Subscribe to notifications based upon any criteria—topic, watchlist, submitter, type of data.

**Work from anywhere.** Stay embedded in the workflow of your team from anywhere with the Tamale Web application.

**Improve investor confidence.** Clearly demonstrate to your investors, the depth and quality of your due diligence process.

### Get Started Quickly

SS&C Advent has served investment organizations of all kinds for more than 30 years—providing proven solutions, mission-critical applications, and world-class technology.

Tamale RMS provides a centralized and intuitive framework for saving, organizing, and sharing all of your research information to enhance and support your research and due diligence processes.

| Single,<br>Integrated<br>Platform   | Automate  | Collaborate<br>and Notify  | Access<br>Anywhere  |
|---|---|--|---|
|                    |  |      |  |
| Centralize your critical research   | Automate tedious tasks such as email processing                                   | Subscribe to notifications based upon any criteria—companies, industries, topics, etc. | Stay embedded in the workflow of your team  |
| Retrieve all of the information on a company, sector, topic or manager                              | Automatically categorize and deposit content                                      | Send alerts automatically when submitting important content                            | Desktop to mobile device—anywhere, any time   |
| Seamlessly integrate internal and external data with your own research for better, faster decisions | Free up time to focus on what matters   | Stay in sync and collaborate like never before   | Rich user experience, integration to MS Office, tablet accessible                   |

“Tamale allows us to spend the majority of our time on what we should be doing—focusing on the tough decisions and the difficult job of managing portfolios. We aren’t slowed down by the inefficiencies of organizing and finding information.”

Will McClelland, Vice President of Research, Ironwood Capital Management
